North Country National Scenic Trail, Wisconsin; Notice of Availability

SUMMARY: A public planning process has been conducted for Northwest Wisconsin and the Adjoining Minnesota Region to select a specific route or trailway for the North Country National Scenic Trail in this region. The planning process identified and mapped a specific "corridor of opportunity" within which public and private partners working to establish and manage the trail will work to secure lands on which the actual footpath can be constructed. This will require the cooperation of willing landowners. Lands may be secured by outright purchase, easement, lease, or voluntary use agreements. The identified corridor is several landowners wide to allow flexibility in working with willing landowners to find a mutually agreeable alignment for the trail. A copy of the trailway plan entitled "Final Trailway Plans for Northwest Wisconsin and the Adjoining Minnesota Region" can be obtained by writing to the Superintendent at the address listed below.

FOR FURTHER INFORMATION CONTACT: Superintendent Tom Gilbert, Ice Age, North Country, and Lewis and Clark National Trails, 700 Rayovac Drive, Suite 100, Madison, Wisconsin 53711; 608-264-5610.

SUPPLEMENTARY INFORMATION: In March 1980, Federal legislation authorized the establishment of the North Country National Scenic Trail (NST) as a component of the National Trails System (16 U.S.C. 1241 et seq.). The trail will extend approximately 4,200 miles across seven northern States: New York, Pennsylvania, Ohio, Michigan,

Wisconsin, Minnesota, and North Dakota. Approximately 1,484 miles are completed and open to public use. A comprehensive management plan, published in September 1982, identified a general route for the trail.

Dated: July 9, 1998.

North Country National Scenic Trail; Notice of Intent

SUMMARY: A public planning process has been initiated to consider a change in the route of the North Country National Scenic Trail in the State of Minnesota. Specifically, the feasibility of rerouting the trail through the State's Arrowhead Region will be investigated. If found to be feasible, the 1982 Comprehensive Plan for Management and Use, will be amended. The planning process will identify and map a specific "corridor of opportunity" within which public and private partners working to establish and manage the trail will work to secure lands on which the actual footpath can be constructed. This will require the cooperation of willing landowners. Lands may be secured by outright purchase, easement, lease, or voluntary use agreements. This planning process will produce a plan that will serve as an amendment to the 1982 North Country, Comprehensive Plan for Management and Use.
